The famous publisher Taschen publishes a new limited edition series. This is a book of photographs of Kate Moss made by his friend Mario Testino. The edition is limited to 1,500 copies, each numbered and signed by the artist.

If I could Taschen and fascinate with their normal editions on photography, fashion or design, when it launches a special edition of love at first sight is already inevitable.

This time it's the turn, the great Mario Testino. And this is a very personal work, as the artist published personal selection of his photographs of Kate Moss, whom he joins a great friendship. Do not forget that he was the great discoverer of the model.

Limited to 1,500 copies, each with its number and signature of the author, the book reveals the hidden Kate publishing the most intimate photographs of the model.

"I met Kate soon. Shortly after his first show for Galliano, I went backstage to congratulate her, only found her crying: I was upset because he had just one model on the catwalk look. I replied as follows: ' In life there are perfumes and colognes. You need to use a lot of cologne, the scent disappears as fast, with a perfume, only use a drop and lasts all night. You're a perfume, keep going and going. 'Little did I know as real as that would be! And he had made a friend for life. "With these words describe his relationship with Moss Testino, a friendship that is key to understanding this work, which can get Fnac Madrid and Barcelona.
